Science, Higher Secondary Certificate

Percentage: 64.77%

Sangola, India

2016 - 2018

EXPERIENCE

Tata Consultancy Services | Assistant System Engineer

Pune, India | September 2022 - Present

AgilePoint to Power Platform Migration

- Migrated complex workflows from AgilePoint to Power Automate, improving system performance, reducing errors, and enhancing process visibility.
- Developed automated and scheduled cloud flows for approvals, notifications, and data synchronization using SharePoint Lists as the primary data source.
- Integrated Power Automate with Microsoft 365 (Outlook, SharePoint, Excel) and third-party APIs to streamline business operations.
- Leveraged conditions, parallel branches, and error handling in Power Automate to ensure robust and efficient workflow execution
- Built reusable and modular flows, ensuring compliance with governance policies and enhancing maintainability and security.
- Skills: Power Automate, Power Apps (Canvas App), SharePoint Online.

Power Apps - Canvas Apps Development

- Designed custom Canvas Apps to optimize internal workflows, integrating with SharePoint and Excel for real-time data access.
- Developed dynamic forms, role-based access, and interactive dashboards to improve user experience and operational efficiency.
- Automated processes via Power Automate for email notifications and approval workflows, reducing manual effort.
- Collaborated with stakeholders to gather requirements, test, and deploy scalable solutions.
- Skills: Power Automate, Power Apps (Canvas App), SharePoint Online.

SharePoint Migration Project

- Led migration of Classic SharePoint site pages to Modern site pages, designing and configuring pages using outofbox web parts for improved usability and performance.
- Executed tenant to tenant Classic site migration, ensuring seamless transfer of content, lists, and libraries with minimal downtime.
- Customized site pages with HTML, CSS, and JavaScript to update links, enhance UI/UX, and maintain consistency across migrated environments.
- Collaborated with stakeholders to analyze requirements and deliver modernized SharePoint solutions aligned with business needs.
- Performed validation and troubleshooting postmigration to ensure data integrity, functionality of lists/libraries, and compliance with organizational standards.
- Documented migration processes and created knowledge transfer materials to support ongoing administration and future upgrades.

SKILLS

Programming Languages: Core Java

Libraries/Frameworks: HTML, CSS, JavaScript

Tools / Platforms: Power Platform - Power Apps| Power Automate, VS Code, Git, SharePoint Online
Databases: SQL

PROJECTS / OPEN-SOURCE

Build, Personalize, and Host a Game

Html, CSS, Javascript

- Create a canvas game using Animating with Images
